

AMENDMENT TO THE ABSTRACT

Please amend the abstract of the disclosure wherein strikethrough and double brackets indicate a deletion and underline indicates an addition, as follows:

~~Disclosed is a~~ A device for metering bulk material. ~~Said device substantially comprises~~
includes a drive unit as well as a metering unit encompassing a metering module, a receptacle,
and a stirring apparatus. A gear can be provided between the metering module and a wheel.
[[Said]] The metering module is provided with an outlet. A quick coupling element is disposed
on an axis in order for the metering unit to be designed as a replaceable unit. The metering unit
can be swiveled about [[said]] the axis when the quick coupling element is engaged such that the
wheel can be non-positively contacted with the driving means. A plate is used as a cover.
